TO: Traffic Commission

**SUBJECT: T.C. 97-101
Revise the Parking Restrictions around Bowling Green Park**

RECOMMENDATION:

That the Traffic Commission recommend revising the parking restrictions along the perimeter of Bowling Green Park from “dusk to dawn” to “9PM to 6AM”.

DISCUSSION

In 1997, the City Council approved Resolution No. 3362, which established a prohibition on parking and stopping along both sides of the perimeter of Bowling Green Park from dusk until dawn.

To ensure consistency and provide clarity with citywide park hours, staff proposes to revise the parking restrictions to prohibit parking along the perimeter of Bowling Green Park from 9PM to 6AM, replacing the existing “dusk to dawn” language.

Exhibit A illustrates the study area and adjacent land uses, along with the parking restrictions.

Staff recommends that the Traffic Commission approve revising the parking restrictions along the perimeter of Bowling Green Park from “dusk to dawn” to “9PM to 6AM”.

The residents were informed of tonight’s meeting.

Respectfully submitted,

Bill Pham, T.E.
Senior Traffic Engineer
